The Synergy Between Care Coordination & Telehealth

June 17th, 2021
Webinar Tips and Notes

• Your phone &/or computer microphone has been muted.
• If we do not reach your question, please contact your regional TRC. There may be delays in response time: https://telehealthresourcecenter.org/contact-us/
• Please fill out the post-webinar survey.
• Closed Captioning is available.
• Please submit your questions using the Q&A function.
• The webinar is being recorded.
• Recordings will be posted to our YouTube Channel: https://www.youtube.com/c/nctrc
The Synergy between Care Coordination and Telehealth
June 17, 2021
Presented By: Faith Jones, MSN, RN, NEA-BC
Today’s Objectives

Upon completion of the webinar, the participant will understand:

1. The required elements of Chronic Care Management
2. The growing service lines within care coordination
3. How capitalizing on the care coordinator position to further the use of telehealth services is good for the patient, the provider, and the practice.
What Makes us Healthy?

https://bipartisanpolicy.org/report/what-makes-us-healthy-vs-what-we-spend-on-being-healthy/
Proactive Care Coordination

Is

Health Promotion

Health is what the individual believes it is
Patient Engagement
Standard 5A. Coordination of Care Competencies are outlined
“The registered nurse:

- Organizes the components of the plan
- Collaborates with the consumer to help manage health care based on mutually agreed upon outcomes
- Manages a healthcare consumer’s care in order to reach mutually agreed upon outcomes
- Engages healthcare consumers in Sell-care to achieve preferred goals for quality of life
- Assists the healthcare consumer to identify options for care
- Communicates with the healthcare consumer, interprofessional team, and community-based resources to effect safe transition in continuity of care
- Advocates for delivery of dignified and holistic care by the interprofessional team
- Documents the coordination of care”

Care Coordination Growth and Development

2013/2015: TCM / CCM Care Management

2016: Chronic Care Management for RHCs and FQHCs and Advance Care Planning

2017: Complex CCM, Behavior Health Integration, Collaborative Care Management

2018: RHC and FQHC Care Management and the Diabetes Prevention Program

2019: Team based Documentation, Chronic Care Remote Physiological Monitoring (CCRPM)

2020: Additional Time allowed for CCM, Expand to allow for billing of concurrent services, Principal Care Management (PCM)

2021: Change the G-Code to CPT for additional time for CCM

2020: Additional Time allowed for CCM, Expand to allow for billing of concurrent services, Principal Care Management (PCM)

Addendum: Added a G code for 30 min of CoCM

Change CCRPM to RPM

Team Based Care AWV 2011
How Well is Care Coordination Working?

“...CMS estimated that approximately 3 million unique beneficiaries (9% of the Medicare FFS pop) received [care coordination] services annually, with a higher use of CCM, TCM and advance care planning services”

Noted outcomes:

“reduced readmission rates, lower mortality, and decrease health care costs”
Elements of Chronic Care Management

**Practice Eligibility**
- Qualified EMR
- Availability of electronic communication with patient and care giver
- Collaboration and communication with community resources & referrals
- After hours coverage
- Care Plan Access
- Primary Care Provider general supervision of clinical staff

**Patient Eligibility**
- Medicare Patient (other ins also)
- Two or more chronic conditions expected to last at least 12 months or until the death of the patient
- At significant risk of death, acute exacerbation, decompensation, or functional decline without management
- Patient Consent
- CCM initiated by the primary care provider
- Time tracking of at least 20 min per calendar month
Care Coordination is more than time tracking
More than just calling your patients
What is Right for the Patient?

The IOM (Institute of Medicine) defines patient-centered care as:

"Providing care that is respectful of and responsive to individual patient preferences, needs, and values, and ensuring that patient values guide all clinical decisions."
From Triple to Quadruple Aim: Care of the Patient Requires Care of the Provider

■ Expanded roles
  • Expanding the role of nurses and other clinical staff in the practice to work to the highest level of licensure

■ Approaches to workflow
  • Team based documentation
  • Pre-visit planning
  • Co-locating for communication

https://www.annfammed.org/content/12/6/573
Research

- What is the purpose of the visit?
  - Review the last note
  - Review any labs, reports, etc
  - Review the consult request
- What does the patient expect from the visit?
  - Care Coordination phone calls
  - Assessing the patient’s understanding
Follow up appointment?
- When does it need to be scheduled for?
- What is the plan?
- Can it be accomplished by Telehealth?
Technology

• Starts with connection
  • Are you using the patient’s WiFi? Cellular Service? Hotspot?
• Lights, Camera, Action
  • Where is the camera? Is it enabled? Is it an add on?
• Sound Check
  • How loud are the speakers? Where is the volume?
  • Is there a microphone? Is it clear?
  • Privacy issues? Need headset?
Pulling it all Together

Does the patient have everything needed to be successful on a telehealth visit?

- Will they be better served with help at home during the visit?

Yes – but who?
Creativity is the ...
Care Coordination Models

• Care Coordinators can make home visits
  OR
• Care Coordination Teams
  ➢ Community Paramedics
  ➢ Community Health Workers
Tracking Time

• All time spent with the patient:
  • Calling and talking to the patient ✓

• All time spent on behalf of the patient
  • Researching in the chart ✓
  • Getting clarification from the provider about a note ✓
  • Using the planning tool ✓
  • Reviewing the labs and reports ✓
  • Assessing and scheduling of appointment ✓
  • Driving to the patient’s home or community visit ✓
  • Setting up telehealth ✓
  • Talking to community resources ✓
Manage Patient and Family Expectations

- Time of arrival
- Time to set up
- Time of the appointment
- Time to discuss follow up

© HTS3 2020 |
Telehealth Visit and In-Person Visit Integration

Patient and Provider expectations and satisfaction

Frustrations and inefficiencies

Increases

Decreases
The RN Care Coordinator is responsible for growth and maintenance of the care coordination program which includes recruitment and maintenance of patients enrolled in care management services; assurance of the completion of the annual wellness visit and follow up on all elements of the preventative plan of care.

This position will work to improve the quality of life of patients enrolled through supporting quality outcomes, smooth care transitions, coordination of care across the health continuum, encourage healthy lifestyle choices to reduce long term effects of chronic illness.
2021 Fee Schedule

- **Annual Wellness Visit (AWV)**
  - AWV Billed only once if first wellness is after 12 months of Part B Coverage – Initial wellness visit
  - CPT Code G0438 National Average Reimbursement ~$160.75
  - Billed one per year – Subsequent wellness visit
  - CPT Code G0439 National Average Reimbursement ~$126.39

- **Advance Care Planning (ACP)**
  - Billed per 30 minutes of dedicated time for conversation and completion of documentation as appropriate - Initial 30 minutes
  - CPT Code 99497 National Average Reimbursement ~$80.70
  - Bill in addition to 99497 for each additional 30 minutes
  - CPT Code 99498 National Average Reimbursement ~$69.35
• **Chronic Care Management (CCM)**

- Billed per calendar month for 20 min of care coordination
  - CPT Code 99490  National Average Reimbursement ~$38.89
- Billed with 99490 for each additional 20 min of care coordination – Max of 2
  - CPT Code 99439  National Average Reimbursement ~$35.65
- Billed per calendar month for 60 plus minutes of Complex Chronic Care Management
  - CPT Code 99487  National Average Reimbursement ~$88.48
- Billed with 99487 for additional 30 min per calendar month for Complex Chronic Care Management
  - CPT Code 99489  National Average Reimbursement ~$41.48
• **Behavior Health Integration**
  - Billed per calendar month for 20 plus minutes of care coordination
  - CPT Code 99484 National Average Reimbursement ~$44.40

• **Collaborative Care Management**
  - Billed per calendar month for 1st month of at least 70 plus minutes of Psych collaborative care
  - CPT Code 99492 National Average Reimbursement ~$146.16
  - Billed per calendar month for subsequent month of at least 60 plus minutes of Psych collaborative care
  - CPT Code 99493 National Average Reimbursement ~$145.84
  - Billed with 99492 or 99493 for additional 30 min per calendar month for Psych collaborative care
  - CPT Code 99494 National Average Reimbursement ~$56.71
• **Remote Physiologic Monitoring**
  - Billed per calendar month for at least 20 minutes of patient and or care giver interaction related to remote physiologic monitoring treatment management services
  - CPT Code 99457 National Average Reimbursement ~$48.29
  - Billed with 99457 for additional 20 min of physiologic monitoring management services with the patient and or care giver in the month
  - CPT Code 99458 National Average Reimbursement ~$38.89
  - Billed on initiation for initial set-up and patient education of the monitor and service
  - CPT Code 99453 National Average Reimbursement ~$18.80
  - Billed each 30 days of supplying the device with daily recording ability
  - CPT Code 99454 National Average Reimbursement ~$61.90
• **Chronic Care Management (CCM)**
  ➢ Billed per calendar month for 20 plus minutes of care coordination
  • CPT Code G0511 National Average Reimbursement ~$61.90

• **Behavior Health Integration**
  ➢ Billed per calendar month for 20 plus minutes of care coordination
  • CPT Code G0511 National Average Reimbursement ~$61.90

• **Collaborative Care Management**
  ➢ Billed per calendar month for 1\textsuperscript{st} month of at least 70 plus minutes of Psych collaborative care and subsequent month of at least 60 minutes
  • CPT Code G0512 National Average Reimbursement ~$146.16
Care Coordination Model: Potential Annual Revenue /Patient

$126 + $609 = $816
Potential Annual Revenue per RN/CHW Care Coordination Team

$816 per Patient \times 300 \text{ Patients} = $244,800
